Admission

Especially for you, for our distributors, designers or simply ordering people with passion, we have created a catalog in which we will present our ideas that will revolutionize the market of outdoor venues. Anyone who wants to be a pioneer in the field of outdoor squares must definitely view this catalog and join the crazy team "Pod Trzepakiem"! Amazing, innovative, designer, high-quality products - you will find it all in our catalog!

WE ARE THE FIRST STAGE MANUFACTURER OF ALL PRODUCTS INCLUDED IN THIS CATALOG, WE INVITE YOU TO COOPERATE!

STREET WORKOUT SETS

We present comprehensive sets of exercise devices, the so-called "Street workout". It is nothing more than a form of physical activity involving the **use of urban building elements for exercise**. Based on **calisthenics**, which is a bodyweight training. Street workout gives us unlimited exercise, and **street training** costs nothing!

Following the example of Western markets and taking care of the quality of devices for many years, we are introducing the option of ordering devices made of **stainless steel**.

WE OFFER TWO OPTIONS:

PN - (half stainless) - Double powder coated poles with a zinc backing, stainless steel bars and exercise elements.

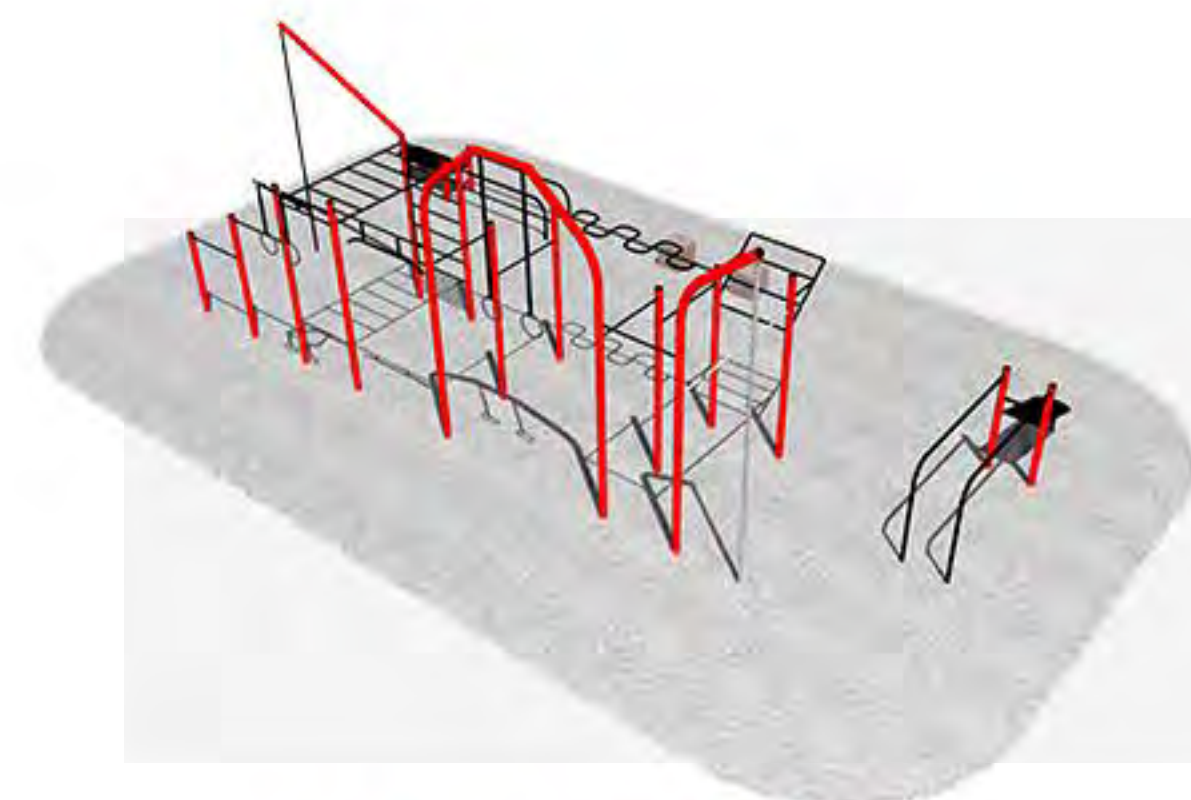

CN - (all stainless) - all devices in stainless steel.

Possibility to combine sets with a **solar speaker** and **LED lamps**, as well as to build a square in the shape of a city / company name.

TRACKS OBSTACLES

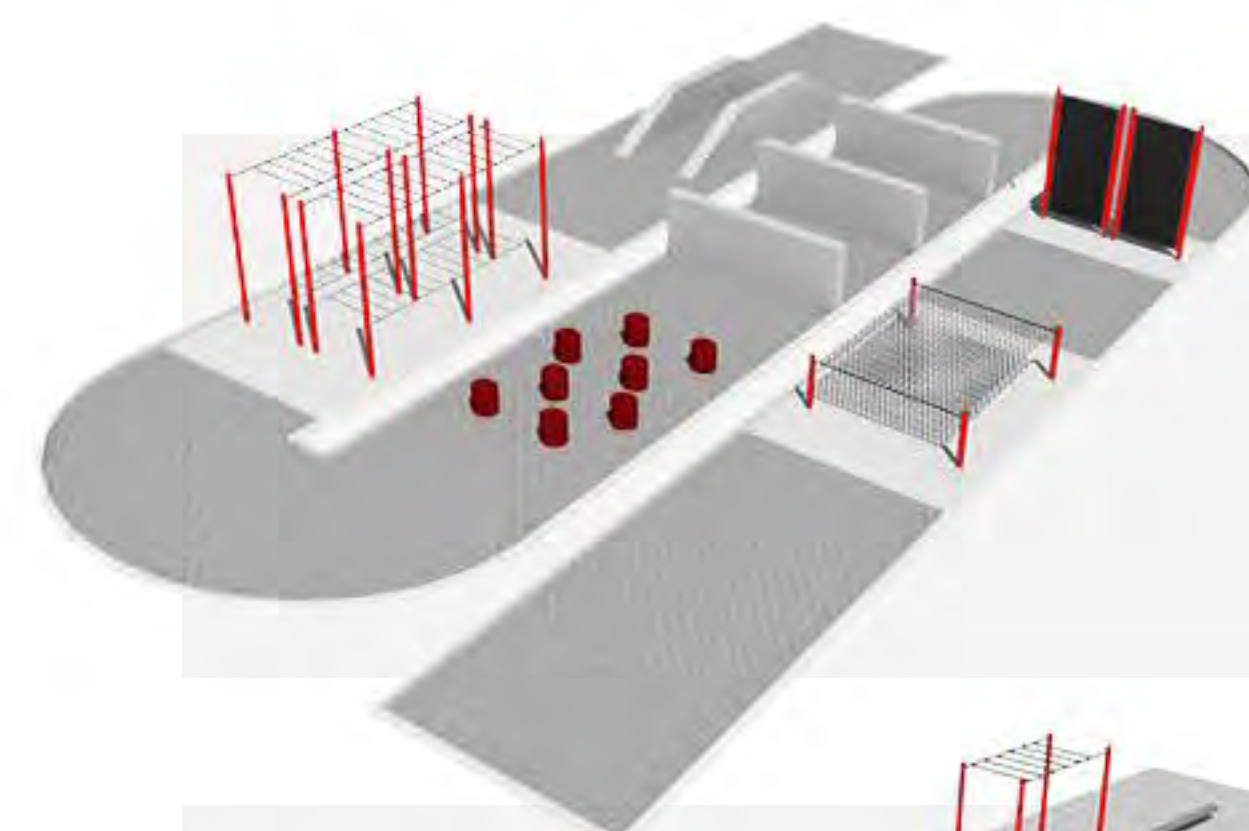

CLASSIC SETS

In recent years, **obstacle runs** in Poland have become very popular. In response to the interest in these activities, we come up with the idea of creating permanent places in public space, dedicated to this activity. You will be able to **test your skills** or **prepare for the run**. The obstacle course is not only an **individual struggle**, you can also compete on it!

PARKOUR SETS

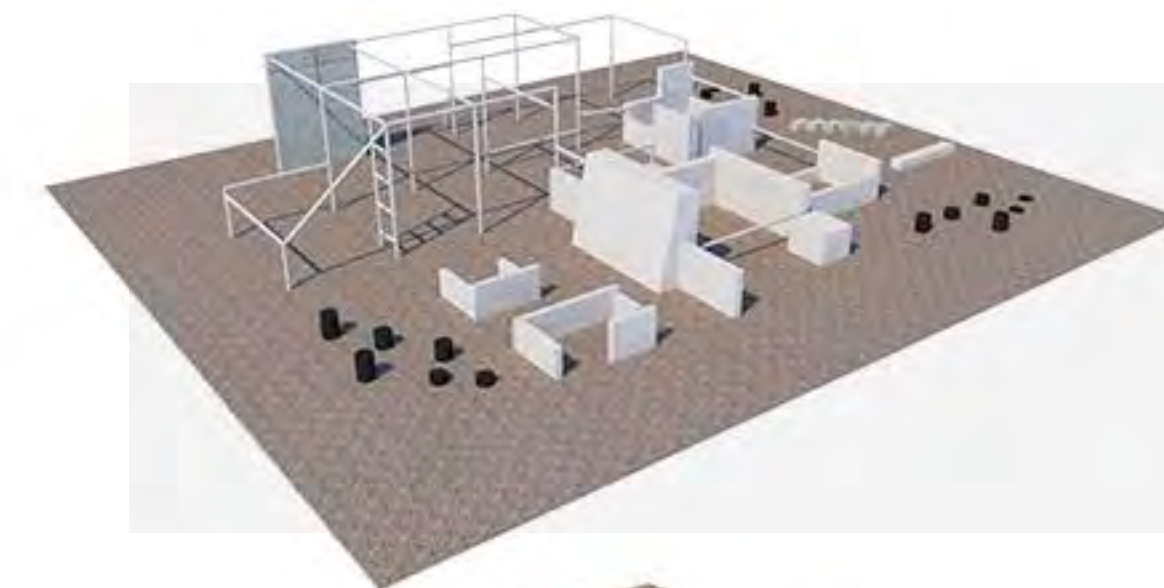

Parkour is about overcoming obstacles in the most effective and simple way using your body.

Our squares will allow you to combine several disciplines, i.e. parkour, freerunning, street workout, and gymnastics. Previous projects show that squares of this type are popular among a wide age group.

We had the opportunity to participate in the design of the European parkour standard: **PN-EN16899E**. This proves that the squares designed by us meet the highest European standards.

INDOOR DEVICES

We encourage you to create with us an unforgettable, fully functional sports facility that will serve users for years!

Physical Training is also a producer of sports elements for the interior. The experience we have gathered in creating internal devices allows us to come up with a proposal to create sports elements for every sports hall. Starting with indoor football pitches, ending with **crossfit elements**. Our own machine park allows us to perform the most demanding projects. We specialize in the production of **black and stainless steel** elements. We help from the first touch on the project to the last screw in the room.

Projects

For an architect

We support everyone at the design stage - starting from the selection of street furniture, through the implementation of an outdoor gym investment, ending with a street workout square. We always **share our experience**, knowledge and creativity. We provide **free advice** in the field of architectural, construction and technical consulting. It is worth adding that designers **can use ready-made DWG files**.

For Cities and Communes

We offer professional **development of design and technical documentation** for the development of external areas (both public and private investments) and their equipment. We make every effort to ensure that each project is carefully thought out, **tailored** to the individual needs and preferences of the client. Thus, it is the basis for creating an attractive, functional space that will delight your eyes for years..

CONCEPTUAL DESIGN

The idea for landscaping, the appearance of buildings and objects in the field of landscape architecture. Division into functional zones. We present the idea on clear and legible boards. In addition, we attach individually prepared boards with inspirations that help to reflect the atmosphere and style of the designed park or facility.

EXECUTIVE PROJECT

Detailed implementation plan for the approved concept. We provide a bill of quantities, a list of used elements with size and quantity parameters, production technology, detailed technical drawings with a detailed description of recommendations for planned works, subsequent maintenance, maintenance and use.

Technical informations

Save 2,000 PLN a year on device services!

The purchase of a square is an investment for years. It is worth choosing devices that, through **appropriate protection** - galvanizing the whole thing or making them from stainless elements, will serve for years.

Defective bearings, numerous rust spots, devices that do not comply with safety standards are numerous cases that can be most often noticed in the implementation of recent years.

By choosing Pod Trzepakiem products, you have a guarantee that the weather conditions, which are sometimes capricious and normal use, will not affect the condition of the devices. We provide a **3-year warranty** on our equipment.

The basic colors of the devices in the case of street workout elements are **red - black**, and for outdoor gyms - **green - gray**. On special request, we are able to match the color to the **individual needs of the customer**.

The standard waiting time for our equipment is two to five weeks. **We deliver** and install all devices **throughout the country**, based on the experience and knowledge of our employees.

We also comprehensively deal with the **execution of surfaces** for our elements, taking into account **safety**, which is most important to us, as well as **aesthetics** of performance.

We are at your disposal, from help in creating the project, to putting the last shovel in.

THINGS WORTH REMEMBERING WHEN BUILDING A SQUARE?

APPROPRIATE VALUATION

Do you have a specific budget for the square or are you just looking for an idea for a project that fits your needs? We will prepare a square proposal for you with an accurate valuation taking into account all costs.

FINANCING FROM THE EUROPEAN UNION

Thanks to funding from the EU Regional Operational Programs and numerous state subsidies, it is possible to obtain funding for outdoor sports equipment. We provide assistance in finding the appropriate body and a subsidy that will help you create your dream yard for exercises.

FINANCING FROM THE CITIZEN'S BUDGET

Civic budgets are funds created for the construction of recreational sites. This support allows the community to voluntarily direct money towards a specific purpose. It is connected not only with the satisfaction of the local group, but can be the basis for the development of sports infrastructure in the years to come. As trainers, we have experience in submitting applications to Civic Budgets. We will be happy to help you in this matter - both in terms of pricing and advice on what to do to make your project win!

SECURITY

When selecting a contractor, special attention should be paid to safety-tested devices. Our devices comply with the latest standards:

- Street workout: PN-EN 1776-1: 2009 / PN-EN 16630: 2015-06
- Parkour: PN-EN 1776-1: 2009 / PR-EN 16899E
- Obstacle courses: PN-EN 16630: 2015-06
- Outdoor gyms: PN-EN 16630: 2015-06
- Springboards: PN-EN 1776-1: 2009
- Small architecture (table tennis table): PN-EN 1776-1: 2009 / PN-EN 1510: 2006
- Skateparks: PN-EN 14974: 2019-07
- Pumptrack: PN-EN 14974: 2019-07

GOOD ORDER DESCRIPTION

Adequately describing the implementation requirements is essential. If you prepare public procurement, we will help you prepare a contract description, thanks to which you will be sure that the built-in devices will be of high quality and will serve for many years.
